

## Magic Coloring Pages

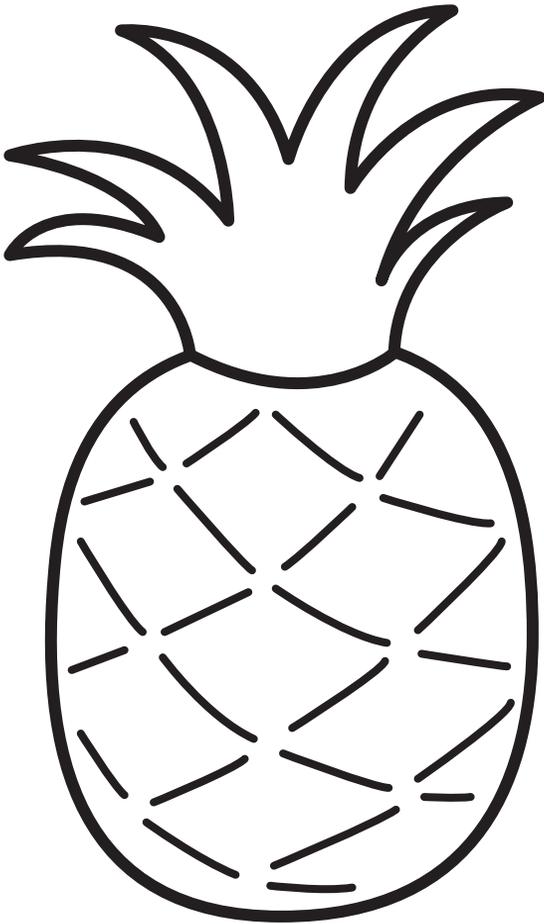

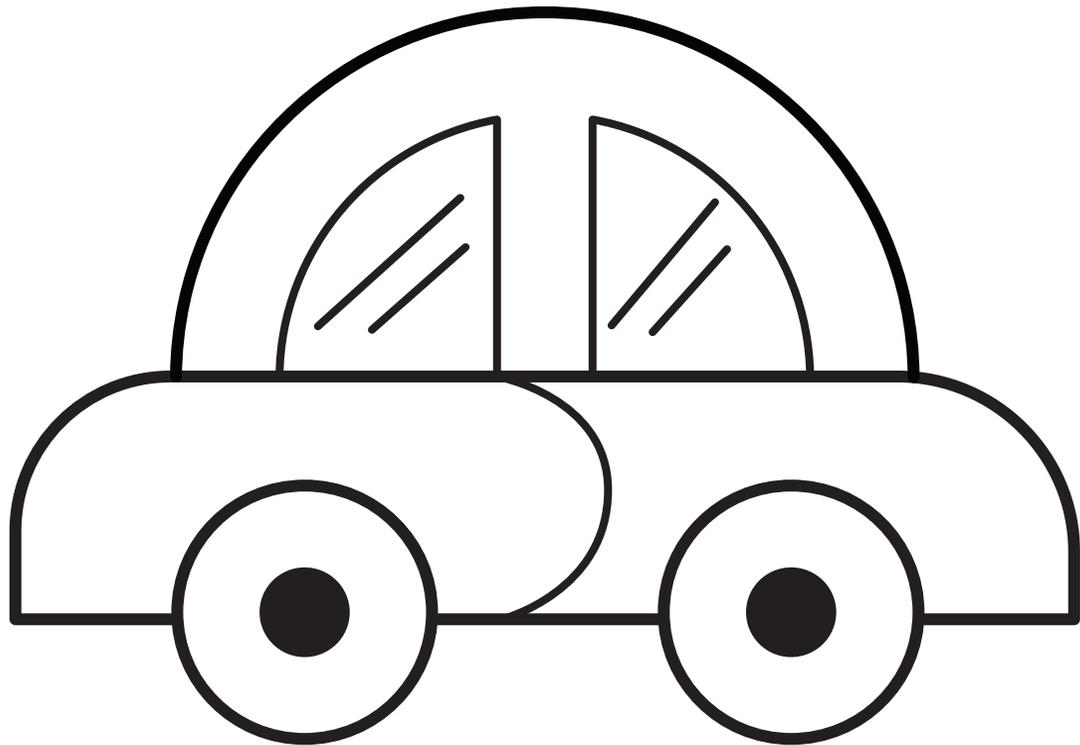

### Printing Instructions

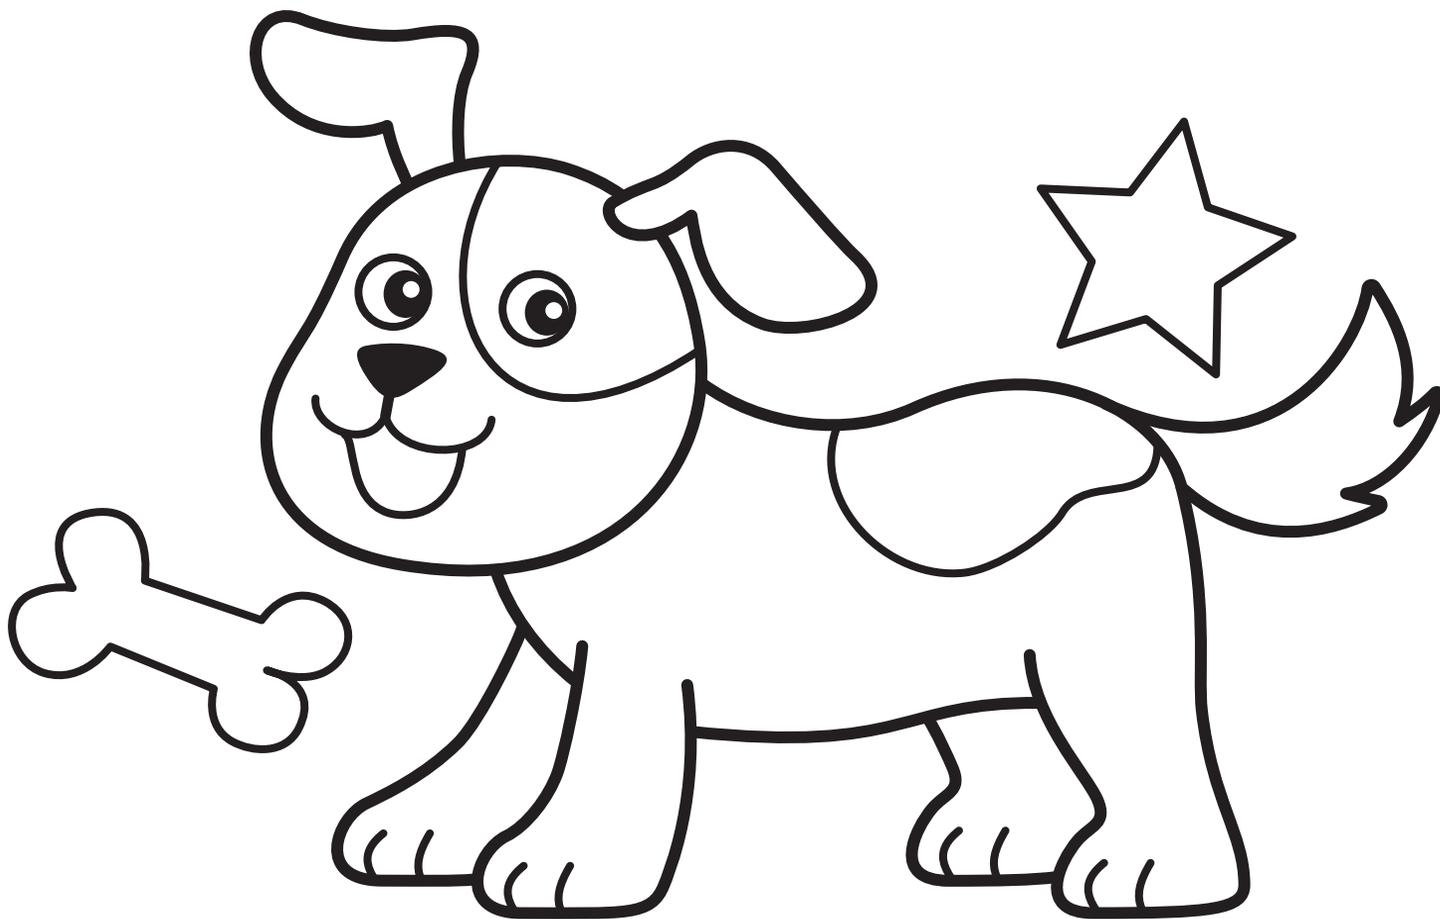

- Set Paper Scale to “None” or select the “Actual Size” setting.
- Confirm the paper size is set correctly to letter or original size.
- Set the paper orientation to “Landscape.”
- Use plain paper. The unit will not recognize the **Magic Coloring Pages** on glossy or photo paper.
- Be sure the printer is not set to “Eco Print” as the black color won’t print dark enough for the unit to recognize it.
- Cut out the picture so it will fit on the **Light-Up Dots Area & White Board Surface**.
